## Objective:

I will launch legitimate financing channel in a worldwide scope in September.

I would like to achieve the 2030 Agenda for Sustainable through the impact of platform "The United Nations World Data Forum" that with bigger framework.

## Description:

To let the value of cultural products created by everyone form financial assets, as to help the growth of GDP of countries.

On 25th of July I have Joined "roadshow of international fair for investment and trade that already has a history of 24 years" in Hong Kong.

Its theme is about "Further expanding bilateral investment, Jointly facilitating global development".

Making intellectual property trading work for development, in discussions of entering the securities market within the country.
